It was really helpful to me and you guys both kept my attention. I would be upset because Ahmed is leaving because he's been really good/helpful but it's okay because this is my last accounting class. All the best to you in your future endeavors Ahmed!

Best review session ever. Ahmed made it really fun and entertaining while educational at the same time. Three hours of accounting flew by with him. Thanks so much!

Great review very helpful and entertaining.
There was a lot of wasted time not doing accounting. Could have been run more efficiently especially because many students still had exams later that day.
i thought the little black boy in front of the class was an incredible motivation to learning accounting. (p.s next time bring an extra \$100 and you are kinda cute...DATE ME)

Awesome job! The midterm session helped out a lot so I feel this one will too. Thanks!
It was very informative. I have nothing bad to say about it.
Very well done!
very helpful
I thought this review session was the most engaging informative and entertaining thing I've ever attended at the University of Guelph. Maybe a bit more review of the actual sample questions before time would improve fluidity and keep these youngins engaged longer.
I was very disappointed as the website when i registered said the review session time was moved from 1:30 to 2:00 however when i arrived at 2:00 the session had already started and they were on question 5. Besides this the session was useful as always.thanks
great review very helpful. you guys were HILARIOUS... really kept the review interesting

Fantastic Review by Ahmed Rizk. He kept the students consistently attentive for the entire session with lots of surprises and quick witted humour. I would recommend these sessions to anyone in accounting regardless of their grade before the exam.
